VESSELS & VASES

Mouth blown and hand cut crystal glass vessels and vases, which merge form with function and simplicity with sophistication. Designed by artists at the Copenhagen based Adorn studio and made by revered glass masters in Murano, Venice.

GOLD LEAF

Fundamental in Adorn designs is the fusion of luxurious precious materials. Visible within almost all Adorn vessels and vases is a layer of 24ct gold leaf prestigiously encased between layers of clear and coloured crystal.

SCULPTURED ART

The cuts, facets and scallops that feature on all sculptured Adorn crystal glass is entirely handmade, making each and every piece truly unique. To achieve these beautiful details, a Muranese glass maestro must hold the newly formed vessel and shape it against large grinding wheels. This already challenging feat is made even more difficult given the sheer weight of our thick cut crystal designs.

Creating these details is an art that relies exclusively on the experience, precision and strength of the glass maestro. Here at Adorn, we are devoted to making glassware using traditional methods passed down and taught between generations. Although it's more difficult and takes far longer to produce, it guarantees every Adorn vessel, vase or lamp is a true bespoke piece.

CENTREPIECE

The Adorn Centrepiece is a masterwork of functional beauty - a candleholder made to grace the most elaborate dinner setting or evening occasion. This elegant design encompasses everything Adorn represents at the highest level of luxurious decorative accessories.

This bespoke Centrepiece can be made with either a single stem or upwards of four or more with each hand cut clear glass flute presented elegantly over a 18ct gold plated solid brass base with Macassar detailing. The Centrepiece candles omit a romantic warm ambience that every special dining occasion deserves.

ADORN

LUMIÈRES

Adorn table lamps feature pear white glass shades and colourful teardrop shaped bases mouth blown from layers of spectacular coloured and clear crystal with 24ct gold leaf. Characterised by rich, vibrant colours and dual illumination, allowing light through either the shade, the tear drop base or both. Our lamps define illuminated beauty.

HURRICANE LAMPS

Perfect for both exterior and interior settings, Adorn hurricane lamps elevate the concept of humble candle lighting. The art of creating a dual coloured piece of crystal is made more difficult by a decorative wave shape that flows around the vessel and divides the colours. Life begins for the hurricane lamp by mouth-blowing a heart of thick clear crystal and overlaying it with layers of colour. Once tempered and cooled from the kiln, the glass maestro grinds away the coloured glass to reveal the original layers of clear underneath.

Exterior version lamps are anchored by solid polished 316 steel pedestal bases for stability.

FLOOR LAMPS

Bespoke designed and made floor lamps by Adorn can take on many different styles to perfectly suit the interiors they ornament. Our featured floor lamp centres on traditional materials and established making methods with mouth-blown glass shades, wood marquetry accents and polished nickel detailing connected with traditional wood turned pillars.

MARQUETRY FOUR COLLECTION

The Marquetry Four collection was created to honour and exhibit the rich and intricate artwork of this discipline. The four boxes within this astonishing limited-edition series are each made up from thousands of individual pieces of dyed sycamore veneer, combined with silver and gold leaf. Each model is dedicated to a specific type of owner and is spectacular in both quality and function.

All Adorn boxes can be personalised inside with the proud owners' name or personal message if gifted to a loved one.

The Marquetry Four are:

- THE POET - THE WATCHMAKER - THE JEWELLER - THE CIGARO -

ADORN

THE POET

For those who still practice the art of penmanship – The Poet has over 3000 pieces of multi-coloured dyed figured sycamore veneer, gold and silver leaf with solid ebony lift-out trays carved for writing instruments, papers and envelopes.

OCEAN NAVIGATOR

GOLD

The luxuriously stylish Ocean Navigator exemplifies the pinnacle of crafting bespoke and highly unique pieces. Specially milled hexagonal framework inlaid with custom coloured figured sycamore veneers. Originally created for those navigating the world's oceans, this unique piece features an oceanic themed silhouette top. Each Navigator has a custom case interior that houses a pair of Steiner Commander Global binoculars - perfect for sighting while at sea. A stunning example of how specialist artisan materials work with fine wood veneering can produce absolute perfection in both design and craftsmanship.

Available in either marine blue and mirror-finish 316 steel or jet black and 18ct rose gold. A true limited-edition collectors' piece.

ARTISAN COLLECTION

The diversity of design and levels of artisan artistry within the Adorn portfolio is further emphasized by the Artisan Collection of decorative boxes. Each example is exquisitely hand painted by one of Adorn's specialist artisans.

The highly decorative Artisan Collection boxes shown here feature meaningful and traditional ancient Chinese prosperity scenes and proverb calligraphy. Bespoke boxes with unique themes or personal proverbs can also be commissioned upon request.

ADORN

LAPIDARY COLLECTION

Precious stones provide the shape inspiration for these high gloss lacquered luxury troves. Detailed with 24ct gold plated brass, each unique piece features a monogramable gold centre disc. Inside is a triple tier of lined exotic wood lift-out trays.

All pieces in the Lapidry Collection can be truly customised to be the jewel in the crown of personal accessories.

SPIRALÉ COLLECTION

The beautiful elegantly twisting forms and spirals that create the Spirale Collection draws inspiration from areas as diverse as architectural structures to beautiful wedding gowns. Scaled down and re-imagined as incredibly dramatic, visually engaging interior accessories. Their unique curvaceous features provide amazing decorative detail.

Whilst the large scale table lamps, tall vases and spacious decorative boxes envisage the masculine feel of strong architectural forms, the Spirale candle sticks and tea lights with their quintessential butlers snuffer are focused entirely around feminine lines influenced by memorable images of a beautiful bride turning to adjust the flowing train of her dress. A trio of serving or display bowls in rose gold or polished steel feature self functioning inner linings in exotic oiled hard woods.

Each piece is available in hand cut marble, cast glass or specially made satin and polished rose gold. The decorative Spirale boxes are available lacquered with rose gold detailing.
